How to change/select/deselect languages in 500AL Pro Model

1. Press 7 button on the keypad to open 26-Lang Dictionary
2. Press F2 button to open Options Menu and press Enter to see available languages F1 Display.
3. Select and deselect languages by pressing a corresponding number or letter near that language check box.(Or use Space key + Arrow up/down keys to check/uncheck the language box)
4. On the same screen, press F2 to open F2 Pronounce. This screen gives you the option to select/deselect Voice/Pronunciation for languages
5. **Do Not Forget to SAVE it by pressing SAVE button on the keypad.**

Input Language Selection

1. Press 7 button on the keypad to open 26-Lang Dictionary
2. Press F1 button on the keypad (it opens a small window with a list of languages) to select language from which you want to translate.
3. Use Arrow keys up/down to select the input language and press Enter
4. Please Note: The language you selected using above steps will be your input language
5. Next step, write the word then press Enter to get a translation, press 1 for English Voice/Press 2 for other language.
